Overall 1 Story 0 Animation 0 Sound 0 Character 0 Enjoyment 0 WTF did I just watched... Do you remember Spike Chunsoft, the same company that brought us the beloved Danganronpa and Mystery Dungeon series? Well...they also made this series, and left it in glorious Japan, where Nippons loved the hell outta it and got a sequel (released globally). And...to both shock and amazement, it actually was well-received! And, now we turn the clock to the series that is the well-trashy anime adaptation by Gonzo of the first game... The story from what I can tell is unchanged from the game itself: the player (or in this case, Visitor Itsuki Yuge) has to flirt with the 12 constellational girls (erm I mean, maidens, sorry...) in order to "give birth" to Star Children, which in turn, Itsuki takes them to seemingly random dungeons to fight evil beings known as "Impurities" to save the world of Granvania. Here's where the controversial divided opinion starts. Despite the Itsuki X constellational maidens set-up, they don't necessarily need sex in order to give birth, but "pour energy" (or the "Love Ritual") into these maidens so that their Star Children matches the powers that each maiden have to aid Itsuki in his quest. And...based on that aforementioned setup, it looks and feels like a censored hentai in almost every way (Heck, why NOT make this a hentai in the first place, that would be better!) Maybe it the "It's NOT an eroge" baby-making pitch that made people think otherwise, and in this unfortunate case, in the hands of School Days director Keitaro Motonaga and the people over at Gonzo. And...it's a trashy masterpiece in its own right that can be best matched up to the glory that is School Days itself. I really don't give two Fs about the characters as well. For one, Itsuki Yuge the Visitor himself, not only was he being summoned to fight against the Impurities as the last hope for Granvania, but dragging along his cousin Mahiru, who seemed to be "pregnant" with his Star Child, and all the way through, he was there just for the sole mission of process-eliminating Impurities so that Granvania can be prosperous again. Otherwise, he's just bland, unlikeable and a sore thumb to look at. Same goes for the 12 constellational maidens, throughout the series we get some backstory about their lives, and it's for that reason that they exist to help Itsuki on the "give birth" side of things. (Spoilers) Not to mention that Alfie, being the extra maiden (literally "extra"), that was when the entire show took a nosedive for the worst. I'd appreciate her sense of literally being the caregiver for the Star Children, nurturing their growth so that Itsuki can utilize their powers to fend of evilwarts, but anything else than that, it's a direct rejection. Easily the most annoying is Mana the perverted subjestic raccoon whom is always acting for Itsuki's naughty and weird antics that it becomes a chore to listen to it everytime in relation to Itsuki. But thank God it's the final boss, and so to speak, defeating it is mission accomplished. And...not to mention the almost drab looking art and animation. I know that Gonzo isn't one of the studios to count on for quality anime, but it at least presented a good chunk of art that's resemblance to the game aestethics itself. I have no idea how it compare with your own eyes. Animation is very minimal for the most part, as it just involves some fighting action, mostly lustful love-sex moments and Mana's direct-indirect love-guru movements over and over in repeat. And oh God the music. I've gotta say that the music really just subverts expectations of the show itself. Nano's OP is just as great, although her new song "Star light, Star bright" is a departure from her usual reprtiore of songs, she has indicated that this song is for the light happy moments, so good for her, it still is one to remember. Same goes with well established VA-cum-musician Manani Numakura with the ED as well. If there's an area of good impressions, it will always be the music, and it doesn't disappoint. In the end, how I wished this was an eroge to begin with, when you have enough evidence of "giving birth", endless amount of flirting and whatnot, if it was designed that way it would have been a moderate success, just with more censoring. Alas, what we got was a series that had given its base up since the beginning, and as a result, created one of the most trashiest anime of the year. Stay far away from this one if you desire hentai levels of enjoyment, or not anime in general. read more Page 2 Shingeki no Kyojin Centuries ago, mankind was slaughtered to near extinction by monstrous humanoid creatures called Titans, forcing humans to hide in fear behind enormous concentric walls.
